Knowledge | Excellence | Care

Diploma in Nursing R.No.171

VISION

The vision of Arwyp Training Institute is to be the private training provider of choice for nursing programmes by providing accessible, high quality education and training.

MISSION

To advance, transmit and sustain knowledge and understanding through the conduct of teaching, clinical practice and research at the highest standards for the benefit of the local and national community.

PURPOSE

This qualification will enable the student to function as a clinically focused, service orientated, independent Registered General nurse, who is able to render nursing care as determined by the appropriate legislative framework in alignment with the National Health Needs of South Africa focusing on the envisioned National Health Insurance Plan and Primary health care delivery.

The qualification will provide a basis for decision-making about what is within and beyond the defined scope of practice, as well as understanding of the referral system in place for anything outside of the scope of practice. The diplomate will apply evidence-based nursing practice which is based on research or established practices that have proven to be effective both nationally and internationally within the profession.
